RE: Trade Waste Incineration
ILD093642424
IEPA #1631210009
1991 Annual Hazardous Waste Report

Dear Mr. Langenberg:

The following information responds to your questions concerning Trade Waste Incineration's 1991 Annual Hazardous Waste Report.

Form GM

TWI's records indicate that hazardous waste was not received from the following generator although they indicated that they sent waste.

VA Medical - Danville	#1838040020
Iaraway	#1970450002
Byerly	#1790605000
Collision Repair	#1610700011
Chicago Transit Authority	#0316005625
BASF	#0316555104

Reasons for these discrepancies can be that the generator filled out a manifest but never sent the material, waste was rejected from TWI back to the generator or the waste went to a transfer or storage facility and the generator changed names to that transfer or storage facility.

Page 2

Form WR

TWI's records indicate that waste was received from:

Alliant Technology Systems
2975 Alliant Drive
Wilmington, IL 60434

DAP, Inc.
7100 N. Mannheim
Rosemont, IL 60018

Monsanto
W.G. Krummrich Plant
Sauget, IL 62201

(TWI is still working on the verification of quantity received)

Form WR

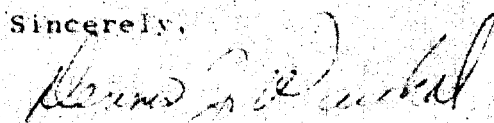

TWI's Form WR does not match generator's Form GM.

TWI has verified that the amount indicated for CWM, Geneva, IL is correct.

Still working to resolve the quantity discrepancy between TWI and GATX Terminal and Precision Scientific.

As indicated, TWI is still working to resolve the remaining issues. Please call if you have any questions.

Sincerely,

Dennis J. Warchol
Mgr. of Permitting and Regulatory Affairs
